REPORT OF THE DEPARTMENT OF PUBLIC WORKS

To the Honorable Mayor and City Council of the City of Rochester, N. H.:

I submit for your consideration the report of the Public Works Department for the year ending December 31st, 1956.

The year started off with a seven-inch snowfall on the 3rd of January and we had snow storms right up to April 8th when we had a ten-inch snowfall. As late as Fast Day we had two inches of snow but that turned to rain. Winter set in again when we had five inches of wet snow on November 26th. Taking everything into consideration, it was a costly winter from the standpoint of snow removal. When the crews were not removing snow there were many days when it was necessary to salt and sand the highways and sidewalks to make driving and walking conditions safer for all concerned. Also, the crews were called out many nights during the season for salt and sanding operations in addition to removing snow.

Considerable patch was used as weather permitted and patch was mixed and stockpiled several times during the year.

Work was started on the John Whitehouse road with a view to tarring the Rochester end of this road. Gravel was hauled in and allowed to pack during the winter and it is hoped the road will be ready to tar early in 1957.

Shade trees were sprayed as has been the custom for many years.

Catch basins were cleaned in the spring and fall and culverts installed as required.

Summer, Kimball, and Allen Streets and Eastern Avenue to the Compact Line were resurfaced with hot top making a vast improvement in this section.

Ten thousand two hundred sixty-five cubic yards of gravel was hauled for the Congress Street Parking Lot the latter part of the year to allow it to pack during the winter season and it is planned to have this tarred and completed for use in the late spring of 1957.

Nearly a thousand square yards of sidewalks using asphalt material were laid during the year.

The Water and Sewer Divisions came in for their share of activity during the year. Water main extensions amounted to 4,558 feet of six-inch cement-lined cast iron pipe. There were 106 new service connections made and 19 services relaid. Two new hydrants were added to the system.

There were 66 new sewer connections made during the year. A new sewer pumping station was built off the Salmon Falls Road which will take care of a new development in that

section. In connection with this station 2,400 feet of 6-inch Class 100 and 1,700 feet of 6-inch Class 50 Johns-Manville Cement Asbestos Pipe was used. Sewer main extensions amounted to 2,404 feet using 6-inch Johns-Manville Cement Asbestos Pipe.

Late in the season the following pipe was laid under the roadbed of the new Spaulding Turnpike in connection with our water line off Brock St.:

- 144 feet 12-inch Cement Lined Pipe
- 128 feet 16-inch Cement Lined Pipe
- 128 feet 20-inch Cement Lined Pipe
- 124 feet 24-inch Cement Lined Pipe

The 24-inch pipe was laid and both ends plugged so it will not be necessary to dig up this highway for future expansion.

Our 12-inch water main on the Genie Road Route No. 125 was relaid from the plant of the Allied New Hampshire Gas Co. south a distance of 1,442 feet. This was made necessary because of construction on the Spaulding Turnpike.

I take this opportunity to thank our Mayor, members of the City Council and our Public Works Committee for their assistance and consideration throughout the year. I, also, wish to express my appreciation to the employees of the Public Works Department for their loyalty and cooperation.

Respectfully yours,

GEORGE C. NADEAU,
Commissioner.

REPORT OF CHIEF OF POLICE

To the Honorable Mayor and City Council of the City of Rochester, N. H.:

Gentlemen:

I have the honor to submit for your consideration the following report of the activities of the Rochester Police Department for the year ending December 31, 1956:

	<hr/>
	566

These arrests were made by:

Rochester Police Department	479
State Police	54
Motor Vehicle Department	2
Probation Department	11
Sheriff's Department	4
Conservation Department	2
Milton Police Department	14
	<hr/>
	566

These cases were disposed of as follows:

Brought before the court and sentenced	411
Released to other Departments	11
Dismissed	7
Found not guilty	12
Released after safekeeping	108
Failed to appear	2
Bound over for Superior Court	15
	<hr/>
	566

Money received from Parking Meters	\$16,011.03
Money received from parking fines	\$1,159.25
Money received from Beano Permits	\$700.00
Buildings checked	223
Traffic investigations	182
Traffic deaths	1
Accidents reported at station	393
Motor vehicle arrests	311
Criminal arrests	147
Summons issued	130
Warnings given	91
Complaints answered	1,371
Aid to other departments	352
Lodgers	275
Calls for the ambulance	124
Personal injuries, auto	55
Animals killed or hit	112
Aids to individuals	745
Simple drunks	108

Pay roll and store escorts	204
Traffic details	123
Report of street and traffic lights out	430
Special officer assignments	4
Breaking, entering and larceny	4
Juveniles	45
Picked up for questioning	22

The following comparisons are submitted to indicate the increase in the volume of arrests and other activities in the past year.

	1955	1956
Total Criminal Arrests	236	255
Total Motor Vehicle Arrests	168	311
Motor Vehicle Deaths ..	5	1
Meter Collections	\$15,298.71	\$17,170.28

The amount of money that has been received from Court fines and fees may be found in the annual report which is submitted by the Clerk of the Municipal Court.

The year just past, saw many changes and, I believe, improvements in the Police Department. In January, 1956, our new ambulance was delivered, and has on many occasions since that time proved its value in taking the sick and the injured to the hospital.

The Police Department is constantly being asked to provide more and varied services. In the year 1956, the Department has added two men, and in doing this we have provided more police service in the villages of Gonic and East Rochester and more men on traffic duty in the City on the busy days of the week. In reading this annual report it will be noted that the number of arrests increased over that of 1955, also that we had five motor vehicle deaths in 1955 and only one in 1956.

I believe that it would be wise to turn in our motor-powered painting machine, for this painting machine is a 1947 model and it cannot do a good job in painting the streets and has now reached the repair stage. It will be to the City's financial advantage to change it. I believe that the new machine should be bought from the Parking Meter receipts as in the past.

I would like at this time, to express my sincere appreciation to His Honor the Mayor, the members of the City Council and to the Police Commissioners for the very fine cooperation and assistance rendered to us during the past year. I also wish to extend my thanks to the other members of the police department for their loyalty and devotion to duty, and to the various other Municipal, County and State Departments for their interest and assistance with the problems of this department during the year just ended.

Respectfully submitted,

ERNEST J. LEVESQUE,
Chief of Police.

REPORT OF CITY SOLICITOR

To the Mayor and City Council of the City of Rochester:

During the year 1956, the scope of the Solicitor's duties has, by ordinance, been increased to afford the thirteen Committees of the City Council and Department Heads further legal assistance in their various duties and it has been my pleasure to attend Council and Committee Meetings, and when requested, to render legal opinions.

All but one of the several claims presented to the City have been disposed of without litigation, and there are no law suits pending against the City at this time.

I wish to express my appreciation for the co-operation and assistance given me by the Honorable Mayor and Gentlemen of the City Council as well as all other City Officials during the past year.

Respectfully submitted,

ROBERT A. CARIGNAN,
City Solicitor.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Rochester School Board:

I herewith submit my eighth annual report as Superin-
 tendent of Schools in Rochester.

This report includes information taken from the official
 records of the School Department, special accounts and statisti-
 cal summaries.

TEACHER CHANGES

Two high school and five elementary teachers left the Ro-
 chester school system during the calendar year 1956. Mr. Ro-
 land Morrison and Mr. Robert Soukup, both resigned from
 teaching positions at Spaulding High School to work in indus-
 try. Mrs. Jean Edgerly and Mrs. Arline Woodman resigned
 from teaching positions at the School Street and Allen Schools
 respectively in April 1956. The following teachers resigned at
 the close of the school year in June: Mrs. Lola Burns, Grade 6,
 East Rochester School; Mrs. Ruth Watson, Grade 4, Maple
 Street School; and Mrs. Beth Jessup, Grade 2, Allen School.

Replacements for the above positions are shown in the com-
 plete list of teachers herewith as of December 31, 1956.

ENROLLMENTS

Enrollments in the elementary schools, Grades 1-6, have increased from 794 in December 1948 to 1,131 in December 1956. During the same period enrollments in Grades 7-12 increased from 923 to 944. A study of present enrollments by grades indicates that there will be at least 1,150 elementary and 1,060 high school pupils enrolled as of December 1957. The school census report for 1956 lists about 300 children born annually in Rochester for the last five years. Over a period of many years approximately one-third of the pupils attend the private schools in Rochester. These facts indicate a steady increase in enrollments in both the high and elementary public schools for several years to come.

Due to the increase of enrollments and teacher-load two additional high school and two additional elementary teachers will be needed next year.

In 1948 there were 39 teachers and 923 pupils at Spaulding High School. Forty-one teachers will be needed in this building next year.

SCHOOL BUILDINGS

The construction of a new elementary school building in Rochester for use at the beginning of the school year in September 1957 will solve the immediate problem of congestion in the lower grades. When the present increase in the number of elementary pupils reaches high school the problem will present itself again.

Spaulding High School was designed for a normal enrollment of 900 pupils or 1,200 by dual use of rooms. It is being operated at more than normal capacity at the present time with an enrollment of 944 pupils.

Four of the five elementary schools need reconditioning. The classrooms in these buildings need redecorating with fresh paint. Several ceilings should be replaced in the halls and classrooms. A coat of fire resistant paint on the hallway walls would add to the appearance of the buildings and the safety of the children. It appears that automatic sprinklers in the boiler rooms would be a good investment.

Each elementary school building is equipped with two separate alarms; one for clearing the building in case of fire and the other for civilian defense purposes. Inspection reports show that all the schools can be vacated in orderly fashion in less than two minutes.

The trend toward a forty-hour week makes the problem of adequate janitor service a difficult one. Our present steam heating systems in the elementary schools burn soft coal and require attention after school hours and on week-ends in cold weather. The installation of automatic oil burners would shorten the time required for janitors but add considerably to the present high cost of fuel.

THE McCLELLAND SCHOOL

The results of a study, made by a School Board committee,

to determine classroom needs in Rochester was included in the 1955 annual report of the School Department.

An official Building Committee, including six members of the School Board and six members of the City Council and the Mayor ex officio provided in accordance with N.H.R.S.A. Chapter 199, Section 3, started work early in 1956 on plans for a new elementary school building in Rochester. The committee consisted of John Meader, Chairman, Leo Beaudoin, Frederic Wagner, Dr. Percy Grigg, Herman Robinson, Tathiana Klinger, Richard Wiley, John Campbell, Sumner Watson, Melvin Downing, Oscar Turmelle, Marc Lemoyne and Mayor Robert Watson ex officio. This same committee was subsequently given the authority to obtain bids, negotiate contracts, build the school, purchase equipment and furniture, select an architect, employ a clerk of the works and pay all bills from a special account for this purpose including architect's fees, insurance, costs of site and site development and to transact any other business that might be necessary to complete the project and provide a new school for use at the beginning of the new school year in September 1957.

A site on Brook Street, consisting of about twenty-five acres, was selected for the new school in April 1956. This site was approved according to the statutes pertaining thereto and purchased following action by the City Council at a cost of \$8,500 including a house thereon which was later sold and moved. Other sites had been considered.

The firm of Tracy and Hildreth of Nashua was selected as the architect. Work on preliminary plans started in June 1956.

General plans, providing for the construction of an eight classroom elementary school building and all purpose room, with offices, kitchen, and storage space and service rooms, were approved in September. It was decided at that time to erect a building designed on an extendible plan so that additional classrooms could be added at a later date without changes in the plumbing, heating, and electric installations.

Estimates on the approved plans were obtained and bids solicited. Mr. David W. Davison of Manchester was the lowest bidder and was awarded the general contract. The following budget for the project was approved:

General contract,	\$255,052.00
Equipment and fixtures,	24,000.00
Site development,	15,000.00
Salary for Clerk of the Works,	3,000.00
Insurance,	1,200.00
Architect's fee,	15,000.00
Bond issue and miscellaneous items,	2,748.00

Total,	\$316,000.00
--------	--------------

The sum of \$316,000.00 was raised and appropriated by the Rochester City Council for the construction, equipment, and furnishings of the new building, including landscaping, site development, fees, salaries and insurance. A bond issue for the above amount was authorized with the Finance Committee of the Council empowered to determine the terms and conditions upon which the notes or bonds would be issued.

The Merchants National Bank of Boston was awarded the contract to negotiate the bond issue. The schedule of sixteen annual payments includes an initial payment of \$21,000.00, fourteen payments at \$20,000.00 each and the final payment of \$15,000.00. The bonds were purchased by Smith Barney and Company with Lyons and Shafto, Inc. of Boston at an interest rate of three per cent less premiums.

The McClelland School was so named in honor of the owner of the property, Robert J. McClelland, who made it available for school purposes at a low price.

JANITORS, DECEMBER 31, 1956

Name of School	Name of Janitor	No. Weeks Employed	Pay Per Week
Spaulding High School	Wm. Grassie, head janitor	52	\$68.00
	Bernard Hunt	52	53.00
	Raymond C. Page	52	53.00
	Granville Rogers	52	53.00
	Raymond J. Seavey	52	53.00
	Ernest Winkley	52	53.00
Allen	Claudis Edgerly	52	54.39
East Rochester	Herman E. Thompson	52	54.39
Gonic	Lionel Theberge	52	54.39
Maple Street	Donald Sylvain	52	54.39
School Street	Robert Quint	52	54.39

Janitor service includes a full time custodian in each of the five elementary schools and six at Spaulding High School. Janitors at the high school are employed to work forty-five hours a week while the schools are in session. Janitors in the elementary buildings must be in the schools more than forty-five hours per week due to the nature of the work and type of heating equipment used. All janitors work on a five-day forty-hour week during the summer. Each janitor has two weeks' vacation with pay and eleven holidays with pay. If high school janitors are required to work on holidays they receive a full day's extra pay which amounts to double pay on such days. The work on holidays for extra pay is rotated among the janitor staff at the high school.

TRANSPORTATION ROUTES

December 31, 1956

Name	Route	Pay Per Week
Larry Cote	Farmington Road, Chestnut Hill Road, Washington St., Dry Hill Road, Hansonville, Oak Street	\$82.75
Richard Hervey	Ten Rod, Chestnut Hill, Cross, and Milton Roads	85.39
George E. Pray	Merrill's Corner, Crown Point, Strafford Road, Rochester Heights, Gonic Road, Charles Street	78.49

Roland R. Roberge	Salmon Falls and Whitehall Roads, Rochester Hill	68.16
Harvey E. Warburton	North Rochester, Milton and Salmon Falls Roads, Adams Corner	92.85
Sumner W. Watson	Rochester Neck, Blackwater, Road, Pickering Road, Old Dover Road, Flagg Road, Dry Hill Road and Oak Street	83.00
Interstate Passenger Service	Milton Road, Washington St., Rochester Heights, Lowell St., Tebbetts Road, Old Dover Road, Rochester Hill (Goodwin Park)	80.81

The several school bus routes, as listed above, will undoubtedly be revised prior to the opening of school in September 1957 due to the reassignment of pupils to six instead of five elementary schools.

GUIDANCE

Every effort is made to provide individual guidance counseling for all pupils throughout their entire school career. The program ranges from pre-school clinics to placement activities for graduates. In the lower grades the counseling function is served by the classroom teacher. In the upper grades the counseling of the home room teacher is supplemented by part time guidance workers. In addition to individual counseling other activities such as the pre-school clinic, grade six orientation day, the study of occupations in social science classes, and pre-scheduling preparation in the high school, help solve the individual problems of each child.

The testing program is invaluable as an aid to the guidance program. Achievement tests of the diagnostic type are administered yearly in grades one through eight. A guidance test battery is given in grade nine which includes an interest inventory, specialized mental ability tests, and aptitude tests. These tests, along with mental maturity tests, provide a basis for helping children explore those subjects and courses best suited to their abilities and interests, and to predetermine insofar as is possible their career choice. Standardized achievement tests have been given in the upper grades for several years.

Guidance records for each pupil in the system are kept in a folder which is available to teachers, counselors and other authorized personnel. All materials which would help in the understanding of each child are put into his own folder every year. This provides a cumulative record for each individual as he progresses through the system.

An alertness to the needs of each child is essential if he is to lead a happy and well adjusted school life and to realize his full potential as a person. The main function of guidance is to serve these ends.

Due to regulations of the State Board of Education, requiring sessions on 180 school days, it is recommended that the Rochester Public Schools shall not close due to inclement weather. School days lost in case of extreme emergencies will be made up by extending the school year in June 1958.

Parents are expected to show good judgment on school attendance whenever unusual conditions may affect the health or safety of their children.

NO SCHOOL SIGNAL

Twenty-two upon the fire alarm will be the signal for no school. When sounded at 7:05 and 7:45 all schools will be closed for the day. When sounded at 11:15 pupils will be dismissed at the usual morning closing hour for the rest of the day. The same signals will be sounded at Gonic and East Rochester. Notification will also be broadcast from Station WWNH and Station WHEB at 7:15 and 7:45.

CONCLUSION

The year 1956 may be remembered as a period of transition in the Rochester schools. Many meetings have been held to solve the problems caused by increased enrollments, ever increasing costs, and new demands made on our schools. The results of this search for the best answers to this accumulation of problems will be shown in our schools in the years to come. The plans for a new elementary school building, the completion of surveys for the reassignment of pupils and revised bus

routes, the preparation of proposed revisions in the curriculum and length of school day, the provision for additional teachers, are attempts to serve the best interest of the pupils.

I wish to thank the members of the School Board, City officials, school employees, parents and citizens for their cooperation during the present year and for their time and efforts on plans for future improvements.

Respectfully submitted,

JOHN H. FRYE,

Superintendent of Schools.

INAUGURAL ADDRESS

By ROBERT W. WATSON, *Mayor*

January 2, 1957

Gentlemen of the Council:

As I am about to assume my duties as your Mayor for the year 1957, I do so with a certain feeling of satisfaction because of what has been accomplished during the past year.

We have been able to fulfill part of the long range program which I had planned for our City, and together we must look forward to the continuation of this plan.

Our fellow citizens have displayed their trust in us by placing us in our respective offices to govern our City with wisdom and deliberation.

During the past year we finally realized a new community swimming pool; Summer Street was resurfaced; miles of City streets were repaired and new streets were constructed to service our ever-increasing population. Together, we have done our best to modernize our Public Works, Police and Fire Departments to provide adequate facilities and protection for our citizens and those travelers who pass through our City and choose to stop and spend some time with us.

This new year 1957 should be a productive year for the City of Rochester. We are about to begin construction of the McClelland Elementary School, which should relieve congested conditions in our classrooms.

We must continue our street building and resurfacing program, together with a recreational program for the young people of our community. The McClelland School will help to give our children better facilities for sports activities, and will relieve the Maple Street School Gymnasium for that use for which it was intended.

In conclusion, I wish to thank the 1956 Council for their splendid cooperation and ask the continued cooperation of you gentlemen, so that I might carry on my program for the coming year.
